

## Press Release

E. W. Klein & Company Hires Steven Fleck as Solutions Engineer

ATLANTA, GA, May 27, 2008 -- E. W. Klein & Company, provider of engineered equipment and technical problem solving, hired Steven Fleck as their new specialty pumps and process equipment solutions engineer. Mr. Fleck will manage all aspects of delivering optimized specialty pumping and process equipment solutions for critical industrial applications.

Mr. Fleck has over 20 years experience designing and implementing critical industrial process solutions. As a former design engineer with Post, Buckley, Schuh, & Jernigan, president of a water and wastewater utility, founder of a hazardous material recycling business and holder of several industrial process patents, Mr. Fleck brings broad experience and knowledge to the E. W. Klein and Company team.

"We are excited to have Mr. Fleck join our team of professionals," said Kent Watkins, President of E. W. Klein and Company. "Mr. Fleck's extensive knowledge and experience will bring exactly the background we were looking for in a specialty pumps and process equipment solutions engineer."
