Demanding industrial processes require equipment that can stand up to the task, but even the most durable equipment requires routine maintenance and occasional service and repair to maintain reliable and efficient performance.

When you need service you need it fast - and you need it to last. Don't risk it with generic parts, unexperienced repair shops, and untrained technicians.

Our certified team of factory trained technicians, certified service centers, and available inventory of OEM parts deliver quality, long lasting repairs lowering your total cost of ownership and returning unit to service as quickly as possible.

Some companies claim to offer service for Nash Products, but only we certify it.

Protect your investment. Insist on OEM parts and CERTIFIED service for your NASH and HOFFMAN & LAMSON equipment.

Our level of service is unparalleled. Our pricing is competitive. And performance is GUARANTEED.
